3. Insert the other end of the cable into the inbuilt USB port of the car or Micro CLA Charger.

Indicator Light

Indicator Light Status	Mode
Red Light	Standby
Green Light	Charging
Flashing Green Light	Foreign Object Detection

Operation Notes

1. For optimum performance, please use the charger according to the user manual.
2. Please unplug the charger after use.
Note: This product has protection functions and the bullet point above is just a suggestion for additional safety.
3. Do not use the charger with an electronic product which is not in conformity with the specifications, to avoid any problems caused by specification mismatch.
4. When using this product, please do not place metal foreign objects (such as keys, coins, batteries, or jewelry) on it, otherwise it will cause abnormal charging, or it will heat up.
5. It's normal for a charger to heat up a little during use.
6. In case the charger stops working under over-current, over-temperature or short-circuit protection, please unplug the device after it automatically returns to work, also check whether the device is compatible with this charger or not.
7. Do not place the charger close to heat sources such as fire, stove, candles etc.
8. Keep the charger away from any form of liquids. If you spill any liquid on the charger accidentally, this will void the warranty on the product.
